12. Disclosure requirements

12.1. OBLIGATIONS FOR ISSUERS

Securities Commissions of the Federation of BiH and Securities Commission of the Republic of Srpska have published rulebooks on reporting which regulate the disclosure requirements for issuers. In addition to the regulator's requirements, the Stock Exchange Rules also require issuers to publish financial reports on a regular basis and inform the public on any significant events which occur.

12.2. OBLIGATIONS FOR INVESTORS

According to the Law on the Securities Market in the FBiH, Article 248, the securities owner is required to publish a notification in case of acquiring more than 5% of all voting rights, or if the stake exceeds or falls below 1/10, 1/5, 1/4, 1/3, 1/2 and 2/3 of all voting rights. The securities owner must notify the Securities Commission in writing within eight days. Also, the notification must be published in a daily newspaper distributed throughout the FBiH.

According to the Law on Securities in the RS, Article 290, the Registry shall notify an issuer and the Commission in writing and to make the data on the acquisition of shares public in the following cases:

- If a person acquired 5% or more shares with voting rights or rights incorporated in such shares;
- If a person's ownership of any class of shares of the issuer with voting rights increases up to or over 5%, or a level divisible by 5% of that class of shares;
- If a person's ownership of shares with voting rights decreases to a level dividable by 5% or less than 5% of that class of shares.

The Registry must notify / publish such data three days after the transaction took place.

12.3. VIOLATION CONSEQUENCES

The Securities Market Law in the FBiH foresees a monetary fine in the amount of BAM 15,000 – BAM 200,000 for legal entities in case the disclosure is not published and the Securities Commission is not informed in accordance with Article 248. A fine in the amount of BAM 500 – BAM 10,000 shall be imposed on a private individual if the owner of the shares does not publish data on the acquisition of shares and does not inform the Securities Commission in the way described in Article 248.

13. Account management

13.1. COMMON ACCOUNT STRUCTURES

Custodians offer the following possibilities for a securities account structure:

- In the name of the underlying client (segregated account) – available in FBiH and RS.
- In the name of the custody bank (omnibus account) – available in FBiH and RS.

SEGREGATED ACCOUNTS

Segregated accounts at CSD level are opened in the name of the beneficial owner. Account opening documentation identifying the beneficial owner must be presented to the CSD when opening a segregated account in the CSD system.

NOMINEE / OMNIBUS ACCOUNTS

Omnibus accounts at CSD level are opened in the name of the sub-custodian only. The CSD in the Republic of Srpska offers the possibility of having multiple omnibus accounts at the CSD level. In the Federation of BiH the sub-custodian can have only one omnibus account. Please note that only client assets are held on the omnibus account. The nominee principle is recognised in Bosnia and Herzegovina.

13.2. KYC / AML REQUIREMENTS

In accordance with the Law on The Prevention of Money Laundering and The Prevention of Terrorism Financing both Banking Agencies laid down decisions on minimal standards of banks activities in order to prevent money laundering and terrorism financing. The Ministry of Security also laid down the Rulebook on risk assessment, data, information, documentation, identification methods and other indicators necessary for effective implementation of The Law on The Prevention of Money Laundering and Terrorism Financing.
