# **Corporate Governance overview**

Our corporate governance adheres to current provisions as well as to the recommendations laid out in the Italian Corporate Governance Code, a soft law that identifies the corporate governance standards and best practices for Italian listed companies based on the comply or explain principle, with disclosure of the reasons for failure to comply in the yearly corporate governance report

Our governance system is continuously monitored to assess the level and efficacy of our governance efforts

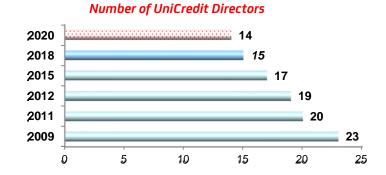

# Main components of our governance

- the Articles of Association, the Regulations for the Shareholders' Meeting and the Corporate Bodies and Committees Regulation, providing the framework for our governance
- the Code of Conduct, aiming to promote a culture of Compliance by providing an outline of the Compliance rules, the ethical professional standards and commitment to sustainability
- the Code of Ethics, adopted pursuant to Italian Legislative Decree no. 231/2001 for the Holding Company, its foreign branches and its Italian subsidiaries
- the Group compensation Policy, establishing an approach consistent with sustainable remuneration and its standardized implementation, with specific reference to senior management
- the Group Managerial Golden Rules, a set of guidelines defining managerial and governance rules at Group level

# Focus on the 2017 / 2020 review

 Although the minimum & maximum range of directors established in the Articles of Association has remained unchanged, the number of UniCredit Directors steadily decreased over the last years

An ongoing review of our corporate governance system is in place, to improve the Company governance and align the same to the best national and international practices

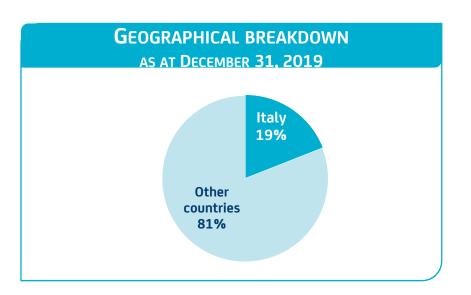

- July, approved the **process for identifying the candidates** for the post of the Board of Directors' member
  - December, amended the Articles of Association in order to:
    - empower also the outgoing Board of Directors, in the event of its renewal, the faculty to file its own list of candidates
    - increase from one to two the number of minority Directors
- February April, size of the Board of Directors reduced from 17 to 15, number of Vice Chairmen reduced from 3 to 1, as well as its tenure equal to maximum 3 mandates
- February March, (i) increased diversity and (ii) assigned to the Board of Statutory Auditors of the functions of the Supervisory Body pursuant to Legislative Decree no. 231/2001, starting from its renewal for the 2019 2021 financial years
  - March 2020, (i) identified digital & technology and banking business as the major competence areas to be developed within the Board and (ii) Board of Directors' proposal to the AGM to identify in 14 members the new Board composition threshold

Director in charge of the internal controls and risks management system

The empowerment (and disempowerment) of Directors is the Board's responsibility. It is the Board that sets out the subject matter, limits and performance criteria for delegation of powers

The only Board member with managerial powers is Mr. Jean Pierre Mustier, to whom the Board of Directors has granted powers, within pre-defined limits and also with the faculty to sub-delegate them, across all sectors of Bank business

In order to ensure proper management of and effective control over said delegated powers, the Chief Executive Officer provides the Board of Directors, according to the ways established by the Board itself, with adequate information flows specifically highlighting any relevant associated risk

For information on such delegated powers a reference is made to the "Managerial powers" Annex to the Report on corporate governance and ownership structure

# **Board of Directors' composition**

# **Board of Directors - skills and expertise**

- The skills and expertise show an optimal balance in the Board of Directors composition
- Since February 2020 the Board also benefits from skills in the digital/technology sector, deemed crucial for implementing the 2020-2023 multi-year plan (Team 23)

## **Qualitative-quantitative composition**

The composition of the Board quantitatively and qualitatively corresponds to the theoretical profile approved by the Board itself on February 2018

### Individual suitability

the experience, integrity and independence requirements, as well as time commitment, including the maximum number of offices that Directors may hold at the same time were abided by:

- ✓ the experience gained by all Directors is in line with the requirements
  provided for by the theoretical profile, considering that they possess a
  good understanding and experience in more than 2 of the required
  areas of competence envisaged by the aforesaid profile
- ✓ all Directors declared their ability to commit sufficient time to duly perform their duties, also including sitting on Board Committees, if applicable
- ✓ the Directors comply with the permitted number of offices under CRD IV provisions (also on the basis of their declarations)

### Collective suitability

- ✓ the Directors' profiles matched with the ideal overall Board composition:
  on average the Directors possess 6 areas of competence out of nine
  identified by the Board; all the core competencies are covered within the
  same
- personal qualities, as well as age and gender diversity (the female component is above the quota established by applicable provisions), fully comply with the profile indications

# **Board of Directors - skills and expertise**

Since February 2020, in addition to the following core competencies envisaged in the 2018 theoretical profile, our Board of Directors also benefits from skills in the digital/technology sector, with specific application to banking, that it deems crucial for implementing the 2020-2023 multi-year plan (Team 23)

### **Group Sustainability & Foundation**

- **Supports** the Corporate Governance, Nomination and Sustainability Committee in performing its activities
- **Drafts** the annual Group Integrated Report, which discloses the Group's sustainability performance
- Guides the ESG (Environmental, Social and Governance) reputational risk prevention process and utilizes relevant tools to monitor environmental and social trends and related risks
- Dialogues with institutional investors interested in ESG topics (including Socially Responsible Investors), specialized rating agencies and analysts
- Monitors key performance sustainability indicators of the Group
- Communicates UniCredit's sustainability approach and results to internal and external audiences

- Our corporate governance system is strengthened by the
   assignment of responsibility for overseeing sustainability and ethics
   issues to the Corporate Governance, Nomination and Sustainability
   Committee (CGN&S Committee).
- The CGN&S Committee makes proposals regarding the Group's environmental and social strategy, annual objectives and targets, monitoring their implementation and examining related reporting. It also supervises the Group's sustainability evolution in light of international guidelines and principles on the subject, monitoring the Group's performance. Furthermore, it keeps abreast of stakeholder concerns, and examines the annual Group Integrated Report prior to submission to the Board of Directors for approval.
- In 2019 the Committee was assigned also with the supervision of ethics issues. In this new task the Committee is supported by the Chief Ethics Officer, a new senior position created in 2019, responsible for coordinating all ethics matters, reporting to the Board and the CEO, and acting as an advisor to the Group. The CGN&S Committee has played a key role in ensuring that sustainability issues were integrated in the new strategic plan Team 23 as an important component of the Bank's business model.
- The Group Sustainability & Foundation unit, part of the Group
  Institutional Affairs & Sustainability department, supports the CGN&S
  Committee in its activities and assists senior management in
  developing strategies that integrate sustainability considerations
  into the value creation process and generate long-term benefits for
  all stakeholders. Starting from 2019, the unit deals also with
  ethical issues in support of CEtO and CGN&S Committee.

# Remuneration of the non-executive Directors and of the Board of Statutory Auditors members

- The remuneration of the non-executive Directors and of the Board of Statutory Auditors members of UniCredit is
  - represented only by a **fixed component**
  - determined on the basis of the **importance of the position** and the time required for the performance of the tasks assigned
- The compensation paid to non-Executive Directors and Statutory Auditors is not linked to the economic results achieved by UniCredit and they do not take part in any incentive plans based on stock options or, generally, based on financial instruments

# Remuneration of the Chief Executive Officer, the sole executive Director sitting on the Board of Directors and employee of the Company

In compliance with applicable regulations, the adoption of a maximum ratio between variable and fixed remuneration of 2:1 has not changed - for the personnel belonging to the business functions, as resolved by the Annual General Meeting on May 13, 2014, and confirmed in the following AGMs

Base salary is appropriate in the specific market for the business in which an individual works and for the talents, skills and competencies that the individual brings to the group. The relevance of fixed compensation weight is sufficient to reward the activity rendered even if the variable part of the remuneration package were not paid due to non-achievement of performance goals.

As per the request by the CEO Jean Pierre Mustier to the Board of Directors in 2016, to set the right tone from the top, as well as to fully align his interests with all stakeholders, specific conditions are applied to his remuneration effective January 1, 2017. In particular, his fixed remuneration was reduced by 40%.

With reference to 2019, the Chief Executive Officer therefore received a total fixed remuneration of € 1.2 m, including director's remuneration.

For the whole time horizon of the Strategic Plan Transform 2019, the variable remuneration for the Group Chief Executive Officer is entirely covered by the 2017-2019 Long Term Incentive Plan, tied to Strategic Plan targets and overall aligned to the Risk Appetite Framework.

As approved by February 5, 2020 Board of Directors, the 2017-2019 Long Term Incentive Plan reached a final outcome of 93.3% of the maximum LTI opportunity based on the Scorecard results (RoAC: 9.8%; Cost/Income: 52.8%; Net NPE: 9.8 billion). Therefore, for the CEO, the variable remuneration amounts to 486,391 shares to be awarded according to the cliff vesting scheme and subject to malus and claw-back conditions, as legally enforceable.

# **Board of Directors role**

UniCredit is a company with shares listed on the Italian, German and Polish regulated markets

Together with its subsidiaries, a wide range of banking, financial and related activities are offered on a global scale in Italy, Germany, Austria, Poland and several other Central and Eastern European countries

As Holding Company of a banking Group, UniCredit carries out organic policy, governance and control functions in addition to banking activities vis-à-vis its subsidiary banking and financial instruments companies

The Group Credit Committee and CEO are assigned the authorities concerning execution of credit activities within the limits and specifications set forth by the Board

The Board of Directors is responsible for

- the resolutions concerning the general guidelines and the adoption and amendment of business, strategic and financial plans for the Company as well as the periodic monitoring of their implementation
- approving the UniCredit organisational structure and corporate governance, in order to ensure a clear separation of duties and functions as well as the conflict of interest prevention
- examining and approving transactions of significant strategic, economic, equity-related and financial relevance performed by the Company

- defining, adopting and amending general guidelines for managing the Group development policies prior to drafting strategic, business and financial multi-year plans and operating budgets for the Company and the Group
- periodically reviewing said guidelines in relation to developments in corporate operations and the external environment and supervising their proper implementation
- approving the corporate structure and governance models/guidelines of the Group
- examining and approving transactions of significant strategic, economic, equity-related and financial relevance performed by the companies belonging to the Group

# **Succession planning process**

Executive Development Plan (EDP) is the process currently in place aimed at enhancing the quality of our Succession Pipeline for our Group Sustainability.

The EDP sessions allow meaningful people discussion and calibration where business needs are the drivers of the process.

## The Executive Development Plan:

- embraces all Group Executives in an annual performance appraisal and development process with both Local and Group Top Management involvement
- is strictly linked with the UniCredit Competency Model, which is based on Our Five Fundamentals
- ensures the Group sustainability by focusing on succession planning
- provides basis for creating individual development paths

In the last edition (2019), ca. **3,200** executives **were involved**: their appraisals and succession plans were discussed and validated by the Group's Top Management through dedicated EDP sessions.

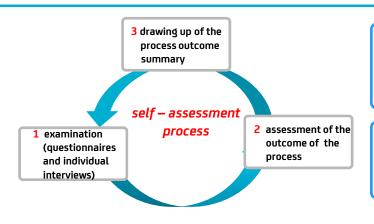

The outcome of the Process, including possible successors for the Top Executive positions, are submitted to the Corporate Governance, Nomination and

Corporate Governance, Nomination and Sustainability Committee and to the Board of Directors

Succession plans that result from the EDP sessions are the basis for the evaluation of possible candidates in case of new appointments, e.g. if an anticipated or unforeseen replacement of Executives is needed

# Self-assessment process (on the Board of Directors and its Committees)

- In compliance with the provisions contained in the Bank of Italy Supervisory Regulations on banks' corporate governance, and also pursuant to the provisions of the Italian Corporate Governance Code for listed companies
- undertaken by the Board at least annually
- focused on the adequacy of the Board and its Committees in terms of composition and functioning, tangibly measured in specific theme-based areas, with special reference to those relevant to healthy and prudent management

The process is undertaken with the assistance of an **external consultant** chosen, taking into account his/her skill, the professional experience acquired by him/her in corporate governance, and the need to be neutral, objective and independent in judgment – the hallmarks of the self-assessment process

The results of the 2019 self-assessment activities define a positive aggregated picture of the functioning of the Board and its Committees, showing that these bodies interact effectively and productively between themselves and the Management

In particular, such results highlight the following strengths:

- The ability to react to strong solicitations when called to discuss and decide on critical issues within a short period of time
- The independent mindset and judgement when analysing and discussing the strategic and operational proposals from the Management
- A balanced mix in terms of age, gender and experience in the current composition of the Board
- The acknowledgment of the need to adjust the current mix of competence areas outlined in the Board's theoretical profile to the evolution of the Group business strategy, thus introducing the competencies in the fields of commercial banking and digital transformation. Accordingly, the Board has been integrated with two new members meeting these requirements

Among the issues pointed out by some Directors:

- The acknowledgment of the effective functioning of the Board, considering that the discussion among Directors intensified as they have been called to resolve on issues of
  particular strategic importance, which influenced the Board's dynamics
- Further strengthening teamwork, fostering an open discussion among the Directors and between Directors and the Management during Board meetings
- Different views among the Directors on the level of detail required for analysis and discussion during the meetings of the Board Committees and those of the full Board.

Moreover, some points of attention emerged in the previous self-assessment have not been fully implemented yet, namely:

- greater visibility and understanding of local geographies and business in which the Bank works
- pre-meeting documents, to be shared more in advance in order to allow Directors to carry out a deeper analysis

# **Internal Controls System**

# Internal Controls System: key element of the overall corporate governance system

Comprises regulations, functions, structures, resources, processes and procedures in order to ensure that the following aims are achieved:

- the implementation of corporate strategies and policies is verified
- the risk is within the boundaries set by the bank (Risk Appetite Framework)
- the assets value is protected and losses are covered

- corporate processes are effective and efficient
- bank information and IT procedures are safe and reliable
- the risk of the bank being involved, even unintentionally, in unlawful activities (particularly those related to money laundering and terrorism financing) is prevented
- operations comply with law, supervisory regulations, policies, regulations and internal procedures

# Organization of the Internal Controls System based on:

• control bodies and functions; information flows and coordination procedures; Group Governance mechanisms

**Board of Directors** defines the internal controls system and risk management guidelines, ensuring that the Group's main risks are identified, measured, managed and monitored adequately

**Internal Controls & Risks Committee** supports the Board in its assessment and decision-making activities relating to the internal controls and risks management system

**Board of Statutory Auditors** oversees the completeness, adequacy, functioning and reliability of the internal controls system
