Improved 2024 guidance while retaining flexibility to further secure long-term ambitions
for 2025 and 2026

UniCredit reaffirms its strong ESG commitment with the launch of the "Skills for Transition" programme to promote a just and fair transition

On 23 July 2024, the Board of Directors of UniCredit S.p.A. ("UniCredit" or "the Group") approved the Consolidated First Half Financial Report as of 30 June 2024. UniCredit has once again demonstrated its strength in the second quarter with an excellent set of financial results, proof of the significant progress that the bank has made thus far in its transformation journey, with significant value still to unlock.

Please refer to the General Notes and Main Definition sections at the back of this document for information regarding the financial metrics and defined terms mentioned in this press release.

¹ EPS calculated as net profit on average number of outstanding shares excluding avg. treasury and CASHES usufruct shares.

² Including dividend per share paid in April 2024 of €1.80, or +14% Y/Y without it.

³ To be defined by the UniCredit Board of Directors on 23 October 2024, after the completion of the necessary requirements.

⁴ Already authorized for an amount of up to €1.7 billion by the Shareholders' Meeting held on 12 April 2024 and subject to supervisory approval.

Empowering Communities to Progress. UniCredit

Our focus on sustainable quality earnings through disciplined management of NII with RoAC only in excess of our cost of equity and increased fee growth, together with continued operational and capital excellence, delivered outstanding profitability and organic capital generation. In 2Q24 RoTE was 19.8% while at a 13% CET1 ratio was 23.6%, up by 2.6 p.p. and 2.3 p.p. respectively versus prior year. 2Q24 net profit reached €2.7 billion, with a 15.9 per cent increase year on year.

The 2Q24 financial outcome reflects high-quality growth and delivery across all key levers, regions and product factories, without compromising on investments. These excellent results were driven by €6.3 billion of net revenues in 2Q24, an increase of 6.0 per cent year on year, underpinned by net interest income ("NII") of €3.6 billion, €2.1 billion of fees, and €15 million of loan loss provisions ("LLPs").

NII was broadly stable quarter on quarter at €3.6 billion, with a lower Euribor and a disciplined management of our pass-through, closing the quarter at an average of circa 32 per cent. The Group's prioritisation of quality and profitable clients and segments continues to result in a superior and capital generative net NII⁵. NII was up 1.9 per cent year on year.

The Group confirmed its structurally low and less volatile Cost of Risk ("CoR") at 1 basis point in 2Q24, booking €15 million of LLPs. The Group continues to have a high quality, geographically diversified and resilient credit portfolio with sound coverage levels and strong lines of defence with €1.7 billion of overlays on the performing portfolio. The FY24 CoR guidance remains unchanged at below 20 basis points.

The very strong increase in quarterly fees of 10.0 per cent year on year demonstrates the effectiveness of our strategic direction and investments. The improvement was spread across most fee categories, and particularly led by investment (+21.1 per cent year on year), advisory & financing (+8.5 per cent year on year), as well as insurance and payment fees. Such performance once again highlights the benefits of our diversification and product factories, resulting in a diversified fee base of 34⁶ per cent out of total gross revenues. Fees were up 6.6 per cent half-year on half-year, or 8.6 per cent when excluding the impact arising from the current account fee reduction in Italy and higher securitisation costs.

In 2Q24 operational costs were €2.3 billion, reduced by 1.7 per cent year on year. This trend confirms the Group's ability to manage its costs despite inflation while also investing in future growth. Thanks to the proactive actions taken in the past quarters, the already industry leading cost-income-ratio ("C/I") further improved by 2.9 p.p. versus prior year to 36.3%.

The Group continues to be a sector leader in capital generation, with 234 basis points of organically generated capital in 1H24, or €6.7 billion, supporting the €5.2 billion accrued for distributions in 1H24, resulting in a CET1 ratio of 16.2%. RWAs were reduced by 1.0 per cent quarter on quarter to €276.9 billion, reflecting UniCredit's commitment to active RWA management to improve capital efficiency.

In line with UniCredit's unwavering commitment to shareholder value creation, the third and final tranche of €1.5 billion out of the total 2023 share buy-back of €5.6 billion is currently being executed. The second tranche of the 2023 share buy-back in amount of €1.6 billion was concluded on 20 June 2024.

The 2024 interim distribution is confirmed. The interim cash dividend, which will be defined by the UniCredit Board of Directors on 23 October 2024, after the completion of the necessary requirements, envisages a distribution of circa €1.4 billion – with the ex-dividend date on 18 November 2024, record date on 19 November 2024 and payment date on 20 November 2024 – whereas the interim share buy-back was already authorized for

⁵ Stated NII net of LLPs.

⁶ Fees and income from Insurance (Dividend or Net Insurance result) as of 2Q24.

an amount of up to €1.7 billion by the Shareholders' Meeting held on 12 April 2024 and is subject to supervisory approval.

FY24 net revenue guidance is upgraded to above €23 billion, while the organic capital generation guidance is improved to above €8.5 billion, retaining further flexibility to secure 2025-26, and confirming our confidence in a high sustainable RoTE >15% and strong growth in EPS and DPS.

Our FY24 distribution guidance is confirmed in line with FY23. On a calendar year basis, the 2024 distribution is expected at circa €10 billion⁷.

UniCredit continues to make significant progress on its ESG ambitions, recently disclosing new Net Zero interim targets for Shipping and Commercial Real Estate. The Bank has now outlined its ambitions for seven of the most carbon-intensive sectors, including an industry-leading phase-out policy for coal, a clear sign of how we are embedding ESG in our financing activities.

UniCredit has recently announced the launch of Skills for Transition: the initiative, entirely funded by the bank, sits firmly in line with UniCredit's strong commitment to promoting a just and fair transition, as well as its consistent support for education — a key driver for Europe's future. It will be comprised of a social programme spanning over six UniCredit Group countries that delivers strategic training to young people and companies expected to be impacted by the green transition, helping them to develop the skills they need to meet the demands of a changing environment whilst generating a measurable social impact.

In June 2024, the bank launched 'UniCredit for CEE', a new initiative delivering concrete financial and advisory solutions across Central and Eastern Europe aimed at helping micro and small enterprises, including organizations from the third sector, to grow and confront the issues associated with the green transition. The initiative makes available 60 financing solutions, worth over €2.6 billion, over the course of 2024.

UniCredit has also been recognised Best Bank for ESG in Italy, Austria, Bosnia & Herzegovina, Czech Republic and Romania at Euromoney's 2024 Awards for Excellence, highlighting the progress we are making in integrating ESG into our operations.

The key recent events in 2024 and since the end of the guarter, include:

- Notice of early redemption UniCredit S.p.A. €750,000,000 Fixed to Floating Rate Callable Non-Preferred Senior Notes due July 2025 (the "Notes") Isin XS2021993212 (press release published on 3 June 2024);
- Notice of early redemption UniCredit S.p.A. €1,250,000,000 Fixed to Floating Rate Callable Senior Notes due June 2025 (the "Notes") Isin XS2017471553 (press release published on 3 June 2024);
- UniCredit successfully issues dual tranche Senior Non-Preferred bonds for a total amount of EUR 2 billion (press release published on 4 June 2024);
- UniCredit above MREL requirements set by Resolution Authorities (press release published on 17 June 2024);
- 2023 third and final share buy-back tranche of €1.5 billion announced on 21 June 2024, immediately after the completion of the second one. As of 19 July 2024, and considering also the purchases made under the first and second tranche, UniCredit purchased a total of 156.1 million shares equal to over 9% of share capital;
- UniCredit announces the acquisition of Aion Bank and Vodeno, next generation core banking platform, integrated with an independent banking license to strengthen client acquisition and product development, enhancing future technological innovation (press release published on 24 July 2024).

⁷ FY24 calendar distribution of circa €10 billion, of which €3 billion of cash dividend paid in April 2024, €1.1 billion of FY23 share buy-back already executed in 1Q24 (i.e. not including the €1.4 billion of FY23 share buy-back already executed during 2023 calendar year) and the €3.1 billion related to the residual FY23 share buy-back, and circa €3.1 billion FY24 interim distribution (o/w €1.7 billion share buyback, €1.4 billion cash).

Andrea Orcel, Chief Executive Officer of UniCredit S.p.A. said:

For the first half and second guarter of this year UniCredit posted yet another record set of financial results.

Our RoTE reached 20% (before adjusting for our significant excess capital relative to peers), our net profit increased 16% to €2.7bn in the guarter and 20% to €5.2bn in the half and our organic capital generation improved to €3.3bn and €6.7bn respectively for the quarter and the half. All are records!

They all are the outcome of our continued transformation and focus on prioritising sustainable quality profitable growth while driving operational and capital excellence and investing for the long term.

Fees strongly grew across the board as our product factory and first line investments begin to deliver more visible results. They complemented well a resilient net interest income, far exceeding our cost of equity, to deliver high quality profitable revenue growth. Cost of risk remains low and stable and, while the macro environment is broadly stable, we are well positioned to weather any possible deterioration with sound asset quality and existing overlays. Our cost continued to decline in spite of inflation and sustained investment, as did our capital intensity, driven by the continued quality improvement of our revenues.

We have announced an interim 2024 distribution of €1.4 billion in dividends and €1.7 billion in share buy-backs as part of our total accrued distribution of €5.2 billion in the first half of the year. Despite accruing 100% of Net Profit, or 60% of our yearly distribution guidance, our best-in-class CET1 ratio increased to 16.2% year on year, on a like for like basis, thanks to our excellent organic capital generation.

These elements, together with still greater value to unlock and significant excess capital to deploy or return, make us confident that we will achieve our future ambitions. UniCredit is setting a new benchmark in European banking, and we are on a clear strategic path that will allow us to grow sustainably and consistently reward our investors and people while delivering for our clients and communities.

Note: 1Q24 and 2Q24 CET1r is net of the accrual for the total distribution following the new EBA Q&A 2023_6887, i.e. including also the share buy-back not authorized yet by shareholders and supervisor. 2Q23 CET1r is on a stated basis i.e. as reported at the time of 2Q23 and not pro forma for share buy-back not authorized yet by shareholders and supervisor.

Total revenues stood at €6.3 bn in 2Q24, down 0.7% Q/Q, driven by NII at €3.6 bn (-0.4% Q/Q), fees at €2.1 bn (+0.9% Q/Q) and trading income at €470 m (-15.8% Q/Q). Total revenues were up 6.1% Y/Y, driven by fees (+10.0% Y/Y), NII (+1.9% Y/Y) and trading income (+1.7% Y/Y).

Net revenues reached €6.3 bn in 2Q24, up 0.7% Q/Q and up 6.0% Y/Y.

In 2Q24, **NII** stood at €3.6 bn, down 0.4% Q/Q, driven by lower loan volumes and Euribor decrease partially compensated by higher investment portfolio contribution. NII was up 1.9% Y/Y driven by higher customer loan rates, together with better results in the investment portfolio, partially compensated by higher funding costs and lower loan volumes.

Fees reached €2.1 bn in 2Q24, up 0.9% Q/Q and up 10.0% Y/Y, the latter driven by higher investment fees, especially in Italy thanks to higher AuM sales on increased client appetite and broader product offering, and higher financing and advisory fees. UniCredit's fee base continues to show its momentum, diversification and resilience. In particular, in 2Q24:

— Investment fees were €0.6 bn, down 4.1% Q/Q, with higher average AuM volumes and related management fees partially offsetting the impact of lower AuM sales. Investment fees were up 21.1% Y/Y, growing across all divisions, particularly in Italy and in Central and Eastern Europe, and mainly driven by both higher AuM sales and AuM management fees.

Empowering Communities to Progress. UniCredit

- Insurance fees stood at €0.2 bn, down 6.0% Q/Q driven by life insurance, while non-life was up Q/Q and registered a double-digit growth Y/Y, mainly thanks to CPI related products growth. Total insurance fees grew 5.2% Y/Y, driven by a strong growth in both CPI related products and property and casualty insurance.
- Current accounts & payments fees generated €0.7 bn, up 4.7% Q/Q, entirely driven by payments, especially in Italy and Central Europe. Current accounts & payments were up 7.0% Y/Y, largely driven by payments and cards related fees.
- Financing & advisory fees were €0.5 bn, up 4.1% Q/Q, mainly driven by Italy. On a Y/Y basis, financing & advisory fees were up 8.5%, with better loans related fees.
- Client hedging fees were €0.2 bn, down 4.5% Q/Q, mainly driven by Germany. Client hedging fees were down 6.7% Y/Y, reflecting the very high activity levels in commodities in 2Q23.

Trading income stood at €470 m in 2Q24, down 15.8% Q/Q on lower client driven activity in Italy and Germany, and up 1.7% Y/Y mostly driven by the positive contribution from client driven activity in Germany, mostly offset by lower non client driven results.

Dividends⁹ were at €118 m in 2Q24, up 9.1% Q/Q and down 8.3% Y/Y.

Operating costs stood at €2.3 bn in 2Q24 down 0.4% Q/Q, and down 1.7% Y/Y, confirming the Group's track-record in operational efficiency through targeted cost reductions to mitigate inflationary pressures, while keep investing, among others, in streamlining the organisation and processes. In particular:

- HR costs were €1.4 bn in 2Q24, down 0.4% Q/Q and down 0.2% Y/Y thanks to net FTE reductions more than compensating salary inflation.
- Total Non-HR costs¹⁰ were €0.9 bn in 2Q24, down 0.4% Q/Q and down 4.0% Y/Y mainly thanks to lower depreciation and real estate costs.

The Cost/Income ratio stood at of 36.3% in 2Q24, broadly flat Q/Q, and down 2.9 p.p. Y/Y.

Cost of Risk, stood at 1 bp in 2Q24, down 8 bps Q/Q and flat Y/Y. This was supported by a highly covered and robust credit portfolio and writebacks on NPE, with a low default rate at 1.1% year to date. The Group reiterates the amount of overlays on performing exposures only marginally moved to c.€1.7 bn, reinforcing the Group's capacity to withstand shocks.

Other charges and provisions in 2Q24 were €228 m, down 34.0% Q/Q, the reduction was mainly driven by the consistent seasonal reduction in systemic charges and partially offset by the provisions for risk and charges.

The 2Q24 **Group stated tax rate** stood at 28.0%.

DTA TLCF write-up were absent in the quarter, thus **stated net profit** equalled **net profit** at €2.7 bn in 2Q24, both up 4.7% Q/Q and up 15.9% Y/Y.

⁹ Include other dividends and equity investments.

¹⁰ Includes Non-HR costs, recovery of expenses and amortisations and depreciations.

Regulatory liquidity ratios are sound: **LCR** above 140% as of 2Q24, meaningfully above the regulatory limit of 100% and within the 125-150% managerial target range. The **NSFR**¹⁴ above 125% as of 2Q24, well above the regulatory limit of 100%.

The 2024 Funding Plan focuses mostly on covered bond issuance and more senior instruments, with limited MREL needs. The 2Q24 **MREL ratio on RWA** stood at 32.5%, down 28 bps Q/Q, implying a buffer of 519 bps above regulatory requirement of 27.34%. The **2Q24 MREL ratio on Leverage exposure** stood at 10.1%, down 5 bps Q/Q with a buffer of 402 bps above regulatory requirement of 6.1%.

SIGNIFICANT EVENTS DURING AND AFTER 2024

With reference to the main events that occurred during 2Q24 and after 30 June 2024, refer to section "Subsequent events" in the Consolidated interim report on operations, which is an integral part of the Consolidated first half financial report as of 30 June 2024, as well as the press releases published on the UniCredit Group website.

ECONOMIC OUTLOOK

We forecast that the US economy will grow by 2.2% this year and by 1.3% in 2025, with guarterly GDP growth likely to slow in 2H24 before recovering in 2025. The main drivers of private consumption have lost steam, while business investment is unlikely to offer much support amid election-related uncertainty and high interest rates. In China, we now forecast GDP growth to reach 4.8% this year and 4.3% in 2025. The outlook on the demand side is not bright: consumer confidence is not recovering and remains stuck at historically low levels. The main growth impulse is from exports and state-driven investment. In the eurozone, economic activity surprised to the upside in 1Q24, but with domestic demand still weak, the economy is not out of the woods yet. We forecast GDP will rise by 0.6% this year and by 1.2% in 2025 as the drag from monetary policy eases while growth in real wages supports private consumption. A resilient labor market mitigates downside risks to activity. In Italy, we expect GDP to expand by 0.8% in 2024 (on the back of stronger-than-expected growth in 1024) and by 1.1% in 2025. Activity in industry, excluding construction, remains weak amid a still-modest recovery in demand and high financing costs, while the construction sector is likely to cool as the positive impact from housing tax credits has begun to fade. The main growth engine is likely to remain consumer demand and service activity, amid improving purchasing power and strong tourism and professional activities, together with investment related to the National Recovery and Resilience Plan. Disinflation has slowed in recent months, with eurozone headline inflation hovering around 2.5% since February, but the downward trend remains intact. Wage growth has likely peaked, while companies are increasingly absorbing high labor costs into their profit margins. The ECB cut interest rates at its June meeting without giving guidance about a future rate path. We expect a slow easing cycle at a pace of 25bp per guarter in 2024.
