London, 2 December 2010

AGENDA

- **Operating Environment**
- Yapı Kredi at a Glance
- Competitive Positioning and Strategic Priorities
- Concluding Remarks

Turkey is a big and attractive country with strong fundamentals

	Turkey	Eurozone
Population, mln	72.6	471.3
Average age of population	28	43
% of population below 30 years	51%	31%
GDP (EUR bn)	443	11,641
Per capita GDP (EUR)	6,100	24,700

- 7th largest economy in Europe, 16th in the World with a large and young population
- Strong ties with neighboring countries with further potential for trade
- Sovereign rating outlook upgrades despite crisis environment in 2009, confirming improved outlook
- Stable political outlook, strengthened fundamentals

Note: 2010 estimates represent Yapı Kredi Economic Research forecasts
Interest rate refers to benchmark bond rate

Turkish banking sector is among the most attractive in CEE in terms of growth potential, stability and profitability

- Significant volume growth potential (mainly retail driven) on the back of underpenetrated market
- Well regulated banking sector with strong capitalisation and profitability
- Successfully coped with the challenging operating environment in 2009 due to:
 - low consumer indebtedness
 - strong capital adequacy
 - limited dependency on wholesale borrowing
 - low short FX position risk
 - rational / disciplined behaviour of banks
- Sound profitability maintained so far in 2010 with strong volume growth. Declining but still very strong NIM and high ROE despite strong capitalisation

Note: Penetration data as of 2009

¹ Private credit includes loans to individuals and companies

Positive macroeconomic environment and banking sector outlook to be sustained in the upcoming period

Macro

- Solid GDP growth in line with / above 5% over the next 3-5 years
- Low inflation environment to be maintained with inflation below 10%
- Low interest rate environment to be sustained
- Turkey expected to reach “investment grade” in 2011, leading to strengthened capital flows

Continuation of positive and stable macroeconomic outlook

Banking Sector

- Significant lending growth in excess of 20% to continue
- Profitability to be maintained driven by strong fee income growth despite downward pressure on NIM
- Sustainable ROE of ~20%, also with some increase in leverage
- Cost of risk to continuously decline driven by asset quality improvement
- Diversification of funding sources to sustain strong lending growth

Banking sector to remain strong in terms of both growth and profitability
