

Business Education at
the University of Bologna

MBA

CORPORATE FINANCE

September 2014 - September 2015

The University of Bologna was established in **1088**, the first in the western world: a strategic crossroads in Europe, where science, technology and entrepreneurship meet values, culture and lifestyle.

At Alma Graduate School, located in a XVI century Villa, we blend our academic knowledge with the managerial experience and practice of the most **innovative** and successful companies.

MBA students join an international **network** of Alumni, Executives and Professors. One year at the MBA of Alma Graduate School, is the key to set the milestones for a personal and professional growth.

Alma Graduate School is a member of EFMD, ASFOR, and is ranked as a "Top Business School" by Eduniversal.

Becoming a leader

Do you want to boost your career in the financial industry?

Do you have an academic undergraduate degree?

Do you have any relevant work experience?

Are you fluent in English?

Are you ready for a challenging year in a multi-cultural environment?

If so, you are the right candidate to apply for this MBA and become a business leader.

Giambologna, Neptune
Piazza del Nettuno, Bologna

Why?

In the continuously evolving environment of the financial industry, it is increasingly important to possess the specific know-how and become acquainted with the best practices of the field. Now, more than ever, corporations require outstanding professionals.

The MBA Corporate Finance is an intensive 12-month international program taught entirely in English. The aim of this program is to provide the educational opportunity to create managers who can successfully operate in small and medium-sized enterprises and enable them to compete in an ever more international business environment. Managers with our MBA background can offer long-term vision allied with the latest management knowledge and the capabilities to interact effectively with advanced banking systems.

Participants will gain all the knowledge, competence, and strategic thinking needed to improve their international career in the financial sector thanks to a unique opportunity to mix knowledge, analytical approach and problem-solving skills.

Building your future

Program

Corporate Finance is a concentration of the University of Bologna MBA program and is made up of two different building blocks:

General Management (MBA core courses)

- Corporate Finance
- Corporate Strategy
- Cross-cultural Management
- Financial and Managerial Accounting
- International Finance
- Leading People and Organizations
- Marketing Management

Corporate Finance concentration

- Business Development Laboratory Corporate Finance
- Business Law
- Corporate Governance
- Corporate Risk Management
- Debt Instruments and Markets
- Finance in Emerging Markets
- Investments
- M&A and Restructuring

Interaction between theory and practice is a distinctive trait of the program: master lectures, workshops, guest speakers and discussion of new business cases take place throughout the year, alongside regular classes.

Faculty members come from both university and industry, and offer participants the opportunity to discuss specific issues, and learn from the most successful experiences of the real business world.

Program features include:

Internship

Career development

Business English class

Italian crash-course

Internship and career development

The program includes a 500-hour internship during the last term (June-September 2015) that will entail a project work in the financial sector.

Internships will offer the opportunity to analyze actual problems, develop strategies, and elaborate action plans in a company environment full of learning opportunities.

Our Career Development Department will help participants pursue their career goals, and will support them in the job seeking process, within and outside UniCredit.
