

# SKILLS FOR TRANSITION

## FIRST LEVEL MASTER

Students will deepen their understanding of **green transition** and the impending **changes** to the **manufacturing and business landscape**. The course also includes extensive **collaboration with industry** leaders and stakeholders who are deeply embedded in sectors undergoing ecological transformation. The primary objective of the program is to equip students with skills in **the Net Zero sectors**, enabling them to **develop key management competencies** aligned with current **market trends and demands**.

The course is dedicated to **talented young people** who have **already earned their Bachelor's Degree** and are keen to continue their education.

The Master's program will take on a maximum of **60 students**, from **Bulgaria, Czech Republic, Germany, Italy, Romania and Slovakia** selected based on the criteria outlined below.

Students who successfully complete the program will receive:

- **60 ECTS and a Final Diploma** awarded by Politecnico di Milano
- Competencies in **sustainable transition**
- Competencies in the **strategic Net Zero sectors**

**No fee is required because both courses are entirely financed by UniCredit**
